TO MEN AND WOMEN OF ALL AGES—ESPECIALLY THOSE OVER FORTY

"I was nearly
bedridden—but was saved by
'Phyllosan' tabletsFurther proof that 'Phyllosan'
tablets give progressive benefit

In 1933, Mrs. I. H. H. H. was "nearly bedridden." She tried "PHYLLOSAN" tablets. Gradually she recovered until she was able to walk freely without a stick. Soon she felt more than 10 years younger! She still takes "PHYLLOSAN" tablets and is thoroughly well and active.

Read Her Letters:

THEN—"I feel so grateful for the recovery I have made owing to the steady use of 'PHYLLOSAN' tablets. I was nearly bedridden. Now I can walk freely without the help of a stick, climb the hills and enjoy life. I certainly feel more than 10 years younger."

TO-DAY—"I am still taking 'PHYLLOSAN' tablets three times a day. They have done a lot for me and the claims you make for them are more than justified. I know they saved me from being bedridden. And especially do I value their power of building up the nervous system and keeping me alert. I am very active and get out every day."

Many people, having once proved the efficacy of 'PHYLLOSAN' tablets, continue to take them from time to time for their vitalizing effect. They find that two of these little tablets taken regularly three times a day help to keep them in vigorous health and assist in maintaining youthful vitality.

Clinical experiments have proved that 'PHYLLOSAN' tablets help to revive the vigor of bodily functions. They stimulate appetite and food absorption, give increased vigor to nerves and brain, and increase the physical and vital forces of the body.

And it is so simple! Just two of these tiny tablets three times a day before meals. Take them regularly. The results will encourage you highly. 'PHYLLOSAN' tablets are prepared according to the formula and under the direction of E. Buegi, M.D., Professor of Medicine at Bern University.

SALMON PACK
MUCH LARGERMore Fish Canned This
Season Than for Six
Years Past

VANCOUVER, Sept. 10.—British Columbia's canned salmon pack this season up to September 5 reached a new high for the past six years, despite the fact that some fishing grounds were left practically idle by a fishermen's strike shortly after the season opened.

This year's total pack was 1,290,288 cases, 251,501 cases higher than the total for the corresponding period of last year and 702,982 cases higher than on September 5, 1935.

The largest gain was recorded in the Skeena River area with 339,991 cases, compared with 123,891 last year.

River's Inlet and Smith's Inlet, the centres of the fishermen's strike, had low packs this year, the former, 67,241 cases, compared with 103,002 cases in 1935, and the latter, 11,057, compared with 39,012 last year.

The pack in district No. 3 was also smaller, dropping from 187,891 cases last year to 157,426.

Pinks accounted for the largest gain with 384,205 cases packed, compared with 420,641 last year. Sockeyes totaled 397,557 cases, compared with 338,782 in 1935.

The total pack of chums dropped this year with 119,981 cases against 149,247 last year.

MINISTER TO
MEET BANKERHon. John Hart Will Confer
With Governor of Bank
Of Canada

Refunding of Federal obligations in the sum of \$100,000,000, now under way, brought provincial refinancing plans measurably closer to the surface this week, though how close remains to be seen. British Columbia's financial position will be laid informally before Bank of Canada officials today by the Government.

Hon. John Hart, Minister of Finance for the province, has arranged to meet Graham Towers, governor of the national institution, who is expected to arrive in the city today. The discussion will follow similar talks already held with bank officials in the last few months.

DESIRE FOR REFUNDING

Government intimation of what will be discussed is being withheld; but refinancing of provincial obligations has been the central aim of British Columbia fiscal policy for some time past. With the Dominion Government occupying the market for refunding issues, however, provinces may have to wait their turn.

Desire to refund \$124,000,000 of the provincial debt has been mentioned in two budgets under the present administration. Extension of maturities and reduction of interest were central points in the plan designed to lessen annual carrying charges for the present.

For some time past, Federal loans to this province have been carried at 3 per cent. in response to provincial submissions. The fixed debt, however, is carried at a much higher rate, and it is there the shoe has pinched in recent years.

BUILDING READY

Willows Park to Be Used for
Industrial Displays

At a cost of \$3,354, the building formerly used for motor shows at Willows Park has been converted for

use of industrial displays, under supervision of the city building inspector's department. Estimates for the project totaled \$3,350.

Boyd Electric Company yesterday completed power wiring connections to the building, and Murphy Electric Company finished wiring the stalls. Exhibitors are already decorating their booths for the annual Provincial Exhibition, which will open tomorrow.

POEMS SUBJECT
OF CRAFT TALKMiss Carman Higgins Con-
trasts Old and Modern at
Authors' Meetings

"Poetry, more particularly that which deals with the things of Nature, is at its best a stabilizing influence, remaining a thing of exquisite beauty in spite of revolutions, depressions, and threats of other upheavals," said Miss Carman Higgins, in a craft talk entitled "Nature in Poetry," at the meeting of the Victoria and Islands Branch of the Canadian Authors' Association last night. Miss M. Eugene Perry, president, was in the chair.

Letters congratulating Victoria poets were read from Dr. E. J. Pratt, editor of the Canadian Poetry Magazine, and Dr. Pelham Edgar, national president of the Canadian Authors' Association. In this month's issue of the Canadian Poetry Magazine, a quarterly publication, are poems by M. Eugene Perry and Pauline Havard, a former member of the group.

Highlights of the national convention of the association, held during the Summer in Vancouver and Victoria, were recalled by Miss Perry, Mrs. Nellie McClung, Mrs. Myrtle E. Lane and Miss Anne Marriott. Mrs. E. G. Ferne spoke of the Victoria sessions, especially with regard to the inspiration gained by local writers from contacts they established with writers from all over Canada.

Good Business for Berth Lines Along Coast Last Month

Ship Space Booked Up Well in Advance—Charting in Lumber and Corn Was Particularly Brisk

SAN FRANCISCO, Sept. 10.—Chartering continued fairly brisk for the month of August, particularly in regard to exports of lumber and imports of corn in full-cargo lots. In so far as corn is concerned, the volume of business affected during the month is probably greater than at any other time in recent history, as will be noted from the fixture list.

Berth lines continued to enjoy a good volume of business, with space very well booked up in advance, according to the monthly report of a General Steamship Corporation. A resume of the various trades follows:

WHEAT

China-Japan—No full cargoes or large parcels reported as booked. The market remained more or less inactive.

United Kingdom—Continent—The market remained quiet. Only one vessel was fixed for a full cargo to the United Kingdom for November loading at a reported rate of 18s 11.0, while three or four vessels

were berthed for August, September, October and November.

Inter-Coastal—Inquiry was heard for American tonnage to load full cargoes of wheat, but in view of the strong "Coke" of the inter-coastal market, no cargo has not been available for this business.

LUMBER

United Kingdom—Continent—Several vessels were fixed on f.i.o. basis which would take a portion of their cargo in lumber. Rates, at the moment, are ranging from 80s to 85s, as quoted by the regular berth lines.

Japan—Rates remain at \$6.00 on baby square, \$6.50 on large square, and \$6.75 on logs, as quoted by the regular berth lines. Space is limited and tramp tonnage is somewhat in excess of regular berth-line rates, which has prevented much chartering in this direction.

China—Lumber rates remain at \$6.75, and logs at \$6.00, to China, with an additional 50c to North China. One or two vessels were reported as fixed for full cargoes at undisclosed lump sums.

Australia—Five or six vessels were reported fixed to this destination. Most of the cargo will consist of lumber from British Columbia.

Berth-line rates remain in the neighborhood of \$7.50 to \$10.00, depending upon port of discharge.

South Africa—Some inquiry was heard in this direction, and a vessel was reported fixed for which ships do not appear to be available at this time.

Inter-Coastal—This trade continues brisk and space on liners is at a premium. Several inquiries are heard for charter for which ships do not appear to be available at this time.

TANKERS
This market was quiet, with only a few fixtures made for various destinations, as will be noted from the fixture list.

CORN
Heavy chartering was done during the month from the River Plate to Los Angeles-Puget Sound route, rates having advanced considerably.

BAR GOLD AT LONDON
MONTREAL, Sept. 10.—Bar gold in London up 1 cent at \$34.79 an ounce in Canadian funds, 137s 7½ in British funds, fixed at \$35.75 in American funds, and \$35 with the United States dollar at par.

GIRL PAT IN BOW STREET

Strange Stories Heard About Adventures of Notorious Trawler's Crew

LONDON, Sept. 10.—Strange stories of the adventures of the trawler-Girl Pat were told in Bow Street police court when the skipper, George Osborne, and his brother, James, again faced a charge of stealing the vessel.

The prosecuting counsel said James was a stowaway with nothing whatever to do with the ship or her crew.

The mate, a man named Stone, did not have a mate's ticket, but borrowed another mate's ticket.

Because he was not in the know, Engineer-Jefferson was plied with drink and left behind at Dover when the Girl Pat had started on her amazing voyage from Grimsby last April.

Log-book entries, counsel charges were faked. On the voyage Skipper Osborne became "Captain Black" and his brother "A. Black." Stone became "H. Tarr."

Stone told the skipper told him they were going to Capetown to fish for oysters and pearls. A fisherman named McLean stated the skipper told him they were going smuggling and gun-running.

The Girl Pat wandered erratically in the Atlantic for nearly two months. She touched at the Canary Islands, at Dakar—in South Africa, then in French Guiana.

Finally she was captured while drifting off Georgetown, British Guiana, last June.

Inland Sailor on Long Voyage

Fraser Port Has Big Increase in Ocean Shipping

NEW WESTMINSTER, Sept. 10.—Increase in shipping from this port for the month of August was nearly 50 per cent over that of the corresponding month last year.

New Westminster harbor commissions announced today 79,228 tons of cargo were handled last month on thirty-three deep-sea ships. Last year 53,441 tons were handled on thirty-two ships in August.

The increase was made mostly in export of lumber and wood products and bar metal.

Vancouver Shipping
VANCOUVER, Sept. 10.—The Greek freighter Garofalia, formerly the Orange River, today was at New Westminster to load for United States Atlantic ports.

Ss. Harpassa went on drydock in North Vancouver today for annual repairs and painting before loading here with sulphate of ammonia for sugar and pineapple plantations in Honolulu. It is understood this cargo is that which American sailors refused to load here several weeks ago when the ship's agents would not meet their demands that longshore crews of the Vancouver and District Waterfront Workers' Association be used.

The ferryboat Sonnia, formerly used between Vancouver and West Vancouver, has been purchased by Fred Ingram of North Vancouver, and is now being altered for use as a tugboat.

Another Human Projectile Hurt

TORONTO, Sept. 10.—Slight injuries were suffered by a girl known only as Cora in the entertainment world last night during a rehearsal for a "human cannon" act at the Canadian National Exhibition. Cora was substituting for Bobbie Jean Bernhardt, who suffered a fractured hip last week when she was "misfired" from the cannon. Cora was able to appear on the regular performance after the mishap.

CRIMINAL CASES
BEFORE TRIBUNAL
Court of Appeal Will Today Hear
Applications on Behalf of
Prisoners

In the Court of Appeal this morning,
three criminal appeals will have
the right of way before the court
resumes the civil cases which have
been before the court for two days
past and which is not yet finished.
The case of Rex vs. Macdonald will
be spoken to by Macdonald, with
J. R. Nicholson, for the applicant,
asking for legal aid for the applicant
and a request that the crown
provide a subpoena for him in the
absence of the necessary funds
by Macdonald to do so himself.

The other cases to be heard are
those of the two Doukhobors, Melvin
and Wessoff, who are appealing
from a three-year sentence imposed
on them for nude parading.

A petition signed by a large number
of their fellow countrymen was
received by the Chief Justice, and
was given to the registrar for return
to the petitioners. The appeal to
the court today will be for leave to
appeal against the sentence.

**PILCHARD RUN
HELD UNUSUAL**

Leaner Fish With Smaller
Oil Content Taken on
West Coast Now

Pilchards have joined the list of Pacific fish acting strangely this year, according to Provincial fisheries officers who returned from a tour of the West Coast of Vancouver Island. West Coast plants are getting pilchards, but the fish are immature and devoid of fat, it was explained.

A shortage of 500,000 gallons of oil from the same quantity of pilchards taken last year is being anticipated in consequence, said J. Armstrong, deputy fisheries commissioner, said.

All through the year, the fishery season has been unusual. Reversal of the usual routine taken by sockeye salmon to Fraser spawning grounds was recorded earlier in the year. This was coupled with an unusually heavy run of salmon to Alaskan waters.

Mopfish, rare enough in Southern waters, were taken in trawls at Ucluelet and at San Francisco, pointing to vagaries in the Gulf Stream, Japan or to some unknown cause.

The herring season will not start until later. It will be watched for symptoms of change which seem to have affected nearly all types of commercial fisheries taken in British Columbia waters this year. Only the halibut acted regularly, larger fish being taken in a good season.

Band May Tour - Bowles' Boys' Band may go on tour next summer, if plans at present in formation materialize. This decision was reached at a meeting held recently, and was prompted by the wide public interest being shown in this group of young musicians. Any boy who is able to play a brass instrument may join the band.

Sentenced to Term - Magistrate Hall in the city police court has disposed of the case of the three young men who were found guilty of possession of stolen fruit. Taking into account all the circumstances, the magistrate allowed George Bedford suspended sentence. Arthur Boyer was sentenced to two months on the charge, and on a second charge, that of theft of an overcoat, he received a two-month term, to run concurrently with the other sentence. In Fred Radelet's case, the magistrate felt that there had been longer premeditation over the crime, and he imposed a sentence of three months upon him.

Adds to Sentence - Fred Radelet was found guilty in the Saanich police court yesterday of having stolen gas belonging to David Warnock. The evidence showed that the offence was committed at the garage of the owner about midnight. The informant, on coming home in his brother's car, located the accused near the garage and followed him from the place. Magistrate Hall imposed a sentence of one month with hard labor, to follow a sentence of three months on a charge of being in possession of stolen goods, which was given him in the city police court and upon which he is now about to enter.

Ringers Visit Here - The ringers at Christ Church Cathedral were greatly assisted by a visit from five Vancouver ringers, who last Sunday came over to spend the holiday week-end in the city. The visit by the Mainland band was a great encouragement to the local band, who expressed the hope that the incident might be frequently repeated. The opportunity was taken to have three sets of change-ringing, which peal-lovers in the city much appreciated, one of the sets taking place before the morning service, another before the evening service and the third after the evening service. The visiting ringers included Messrs. Limpus, Lomas, Sampson, Foster and Greenaway.

**TWO VICTORIANS
ARE ELIMINATED**

JASPER PARK LODGE, Alta., Sept. 10 - Strength took growth today in the play to reach the semi-finals of Totem Pole golf championship and as result of four games played in this flight, Bill Scharie, Vancouver, and Bert Barnabe, Ottawa, will meet in top bracket, with Lionel Morrison, Calgary, and Jack Starky, Edmonton, meeting in the lower bracket. In women's championship, Mrs. Irma May, Edmonton, staged a bit of upset to defeat Mrs. Z. Huse, Victoria, in the home green in the top half, while Mrs. S. P. Howell, Vancouver, defeated Mrs. E. M. Cuppage, Victoria 2-1.

Two of the championship games were outstanding. Barnabe had a rare battle with Lang, who went out in 35 to be 2 up. Barnabe got a hole back with a birdie at the long tenth and they halved the next two. Barnabe then won the low third, tenth and fourteenth to be 1 up. Lang squared the match at the "bad baby." Barnabe played perfect four to win the sixteenth and two halves ended the match.

I.O.D.E. Has Reception For Mrs. Eric W. Hamber

Delightful Party Held Yesterday Afternoon at Oakbay Beach Hotel in Honor of Municipal Chapter's Honorary Regent

Amid the most delightful surroundings at the Oakbay Beach Hotel, members of the Imperial Order Daughters of the Empire in Victoria enjoyed the opportunity yesterday afternoon of meeting their honorary regent, Mrs. Eric W. Hamber, wife of the Lieutenant-Governor of British Columbia.

The reception was arranged under the auspices of Victoria Municipal Chapter, of which Mrs. William Ellis is regent, and approximately 130 members and guests attended.

The lounge had been attractively decorated for the occasion with great brass and copper bowls of zinnias, goldenrod and helenium, and tea was served buffet style, the guests grouping themselves informally about the room, one corner being reserved for Mrs. Hamber, the hostess and special guests. Here, Mrs. J. Gordon Smith presided at the tea table.

There met the members of the executive.

Mrs. Hamber wore a smart black dress with touches of white in the vest, which was fastened with small diamond clips. Her tailored black skirt was trimmed with a narrow white band, fastened with a stiff box in front and she wore a beautiful silver fox fur—Lady Thackerton was in a becoming black and white dress with a close-fitting black hat, the crown of which was ornamented with flat white velvet flowers. Mrs. Ellis had chosen a pretty frock of floral chiffon in shades of rose, green and blue, with which she wore a wide-brimmed hat trimmed with a wreath of tiny yellow French flowers.

MUSICAL PROGRAMME

After tea a short musical programme was given, Miss Gwendoline Harper playing two pianoforte solos which were much appreciated. "Impromptu" (Chopin), and "Caprice on Air de Ballet" (Chalk-Saint-Saens). Little Ilse Boskley sang two numbers, "My Daddy's Little Baby" and "Love".

Mrs. Hamber, accompanied by Lady Thackerton, who had arrived in Victoria earlier in the afternoon from London, and Mrs. M. Rice, were welcomed upon their arrival by Mrs. William Ellis. She was escorted to the reception lounge and there met the members of the executive.

Mrs. Hamber was presented with a corsage bouquet, and little Miss Boskley, with a box of chocolates. Mrs. William Ellis, on behalf of the members of the order, warmly welcomed Mrs. Hamber and presented her with a lovely Victorian bouquet of mixed flowers, also presenting Lady Thackerton with a corsage spray of roses and violets and welcoming her to Victoria. Lady Thackerton is a cousin of the late Major J. B. Gillespie, Victoria, after whom the Major John Hadden Gillespie Chapter was named.

Mrs. Hamber then graciously received all those attending the tea.

Those having tea with the executive were as follows: Mrs. Hamber,

Hon. E. W. Hamber To Be Institute's Honorary Patron

The Victoria Connaught Seamen's Institute resumed its meetings after the Summer holidays yesterday afternoon, the president, Mrs. W. R. Sayer, in the chair, and nine members present. The meeting opened with prayer by Rev. F. W. Weaver, visiting chaplain. Minutes of the last meeting and correspondence were read by the secretary, Mrs. H. D. Day, and Madame Claudet read the financial statement.

Great pleasure was expressed that Hon. E. W. Hamber, Lieutenant-Governor of British Columbia, had consented to act as honorary patron of the institute.

Much regret was felt that Rev. F. W. Weaver, visiting chaplain, and Mrs. Weaver were resigning on account of their departure for Cumberland, and the members wished them every success and happiness in their new parish. They were presented by Mrs. Sayer with two medals made from copper from H.M.S. Victory as souvenirs of their all-too-short stay in Victoria, and as a memento of happy association with the institute and its work.

During the month of August, 107 men and seventeen cadets had visited the institute, and twenty-four had been visited. Tea was served after the meeting by the president, Mrs. Sayer.

Miss Frances Musgrave Married at Quamichan

Bridegroom—Mr. Ian James Montague Scott, of San Francisco—Many Victorians Attend Smart Up-Island Wedding

DUNCAN, Sept. 10.—St. Peter's Church, Quamichan, was the scene of a lovely wedding this afternoon when Rev. T. M. Hughes united in marriage Miss Frances Kathleen Musgrave, of Victoria, and Quamichan, and Mr. Ian James Montague Scott, second son of the late Mr. James W. M. Scott and of Mrs. Scott, Victoria.

The church was beautifully decorated for the occasion by friends of the bride under the direction of Mrs. Edward C. Trench, master of glad and asters in shades of pink and mauve being used. Mr. E. C. Trench was at the organ.

LOVELY BRIDE
The bride, who was given away by her father, made a lovely picture in her wedding gown of crepe pink satin, made on Princess lines, with long tight-fitting sleeves trimmed to the elbows with tiny satin buttons. The floor-length skirt ended in a fan-shaped train made on very sweeping lines. With this was worn a tall veil of the same shade, arranged as a coronet caught at each side with a cabochon of matching pearls. Her only ornament was an heirloom brooch of pearls in the form of a lover's knot. She carried a shower bouquet of Hoosier Beauty roses and maidenhair fern.

THE ATTENDANTS
Mrs. Donald Ross Fraser was matron of honor, and the bridesmaids were Miss Rosalind Peace, Miss Amy Alexander and Miss Ursula Robbins, of Victoria, and Miss Adele Kirkbride, of Litchfield, Conn. Wedding at St. Aidan's Attractive

The wedding took place in St. Aidan's Church, at 9 o'clock Wednesday night, between Elizabeth McGregor, only daughter of Mr. and Mrs. A. H. McPherson, and Mr. Charles Edwin Ennis, elder son of Mr. and Mrs. C. P. Ennis, both of Cedar Hill Crossroad. Rev. T. G. Grimms officiated.

The church had been beautifully decorated for the occasion with pink and white flowers, with white chrysanthemums predominating. The church organist played the wedding marches and other incidental music. The bride, who was given away by her father, wore a lovely princess gown of ivory chiffon with a floor-length skirt and long gloves of white tulle arranged with a coronet of orange blossoms, which formed a train. She carried a shower bouquet of Ophelia roses and white chrysanthemums. The bridegroom's sister, Mrs. E. Harvey, was matron of honor and wore a frock of beige crepe and a white hat and carried a shower bouquet of African daisies, and his brother, Mr. Bernard Ennis, was best man.

RECEPTION HELD
About one hundred and fifty guests were entertained after the service in the church hall, which was also effectively decorated in pink and white, and here Mr. and Mrs. McPherson were assisted by the groom's parents in welcoming the guests. Mr. McPherson wore a frock of brown crepe and a matching velvet hat, and a corsage of Ophelia roses and white chrysanthemums. The bridegroom wore a frock of beige crepe and a white hat, and a corsage of African daisies, and his brother, Mr. Bernard Ennis, was best man.

TO LIVE IN CALIFORNIA
The bride and groom left for California, where they will make their home in San Francisco. For traveling, Mrs. Scott had chosen a most becoming dress in Duchess of Gloucester green of a featherweight woolen material, made on fitting lines. With this she wore a green felt hat of the same shade with matching accessories, and a smart coat in the same shade with a beaver collar.

Is Appointed To Canadian Radio Board
My appointment to the board of governors for the new Canadian Broadcasting Corporation comes as a total surprise. I have just now heard of it over the radio. I am a Canadian writer, and have been interviewed at her home in Gordon Head last night.

Mr. McClung is the only woman member of the board. She is a native of Victoria, and has been a long-time resident of the city. She is a well-known writer and has been interviewed at her home in Gordon Head last night.

KEENLY INTERESTED
I am rather bowled over by the importance of the appointment, the writer smiled. "I am intensely interested in radio and follow it closely, and realize its scope for good or evil. Mrs. McClung follows great possibilities for radio in Canada and hopes she will be able to do her part in its future development."

Bridal gifts were many popular books. Among the many popular books, Mrs. McClung was long associated with church work. Women's Canadian Temperance Union, missionary circles, Canadian Women's Press, Women's Institute, and Canadian Authors' Association.

ST. MARY'S
At the first regular meeting of the St. Mary's A.Y.P.A. the following officers were elected: President, Philip Salmon; vice-president, Dudley; secretary, Fred Holm; corresponding secretary, Lucille Mackay; and treasurer, George Bennett. Plans for the ensuing year were discussed. Next week a social will be held.

Y.W.C.A. Notes

The Y. W. C. A. has been the scene of great activity in preparation for the booth at the exhibition. With posters in the background, the booth presents the activities available to the girls of Victoria at the Y. W. C. A. In the foreground there is a miniature display of the "Pep" class on the gymnasium floor, and a badminton court with four figures in action. A typically informal club group completes this attractive model.

On either side there is a hand-drawn display of useful articles that can be made during the Winter in the supervised craft club.

There is a contest to estimate the number of spots in the smart afternoon dress on display. The nearest estimate wins the dress.

A number of suggestions for leisure hours have been offered to Victoria business girls in the Fall and Winter folder that has been distributed throughout the city this week. September 24 is the Y. W. C. A. opening night.

Social and Personal to Proceed WITH REFUNDING PLANS

Continued from Page 1
The refunding plan, the 1936 deficit and budgeting for the \$100,000 Provincial Government loan to be levied next year. With adoption of the plan the city will be able to take care of all obligations without an increase in taxation, will be in a sound, solvent financial condition, will have a surplus and will be able to restore marketability of its bonds.

It was unanimously decided to instruct H. S. Pringle, city solicitor, to draw up a by-law appointing Mr. Henley fiscal agent for the city. The mover was Alderman Dr. Hunter and the seconded Alderman Waller. Copies of Mr. Henley's revised financial scheme were then distributed, and read by the assistant clerk.

EXPLAINS SCHEME
Asked for an explanation by Alderman Archie Wills and S. H. Okell, Mr. Henley made the following remarks:

"The refunding scheme is the same. Changes have been made to bring about the sale, or refunding, of the city bonds, and the exchange of all of every possible amount and part of debentures in the A to E series.

APPOINTED TRUSTEES
To Mr. MacDonald will be entrusted the sum of \$10,000 to be used, paid out and disbursed by him in paying expenses of the delegates in traveling, in paying costs of agency assistance and legal fees, and costs of rent, printing, stationery, postage and other properly incidental outgoings in connection with the municipal business.

Mayor Leeming will be entrusted with \$2,000 to be used in paying his expenses when traveling and engaged in municipal business.

After ascertaining results of some of the results of the delegates, a petition will be presented to the Legislative Assembly, praying for the passing and enacting of a statute validating the municipal business mentioned. In the event of completion of a successful refunding, up to an aggregate of not less than \$12,656,222.21, the City Council will also ask for legislation sanctioning payment of \$15,000 to Mr. Henley, in full, for his services in connection with the refunding scheme.

PASS CONFIDENCE VOTE
Requesting Alderman Andrew McGavin to take the chair, Alderman Adam proposed the following resolution:

"That the City Council hereby places on record an expression of its full confidence in the integrity, good intentions and loyalty of Mayor Leeming and Alderman Brown, and its genuine appreciation of their consistent and valued endeavors at all times to further the best interests of the city of Victoria."

Seconded by Alderman Okell, the resolution passed after considerable discussion and deletion of the first section, which read:

MEET IN LONDON
When Vancouver started a refunding plan, a beheading of bonds was held. I have been informed by the controller of a large block of Victoria bonds that they will be turned in for conversion at a lower rate of interest. We intend to get an expression of opinion from those who hold the greatest quantity of Victoria bonds. I do not think those in London will ask what holders of bonds resident in Victoria think of the conversion plan. It seems to me that holders of bonds in London would be highly complimented by having the scheme presented to them first," Mr. Henley concluded.

SAY AGREEMENT LEGAL
Alderman Dr. Hunter told how he had cabled to England, through his bank and found references of the firm Mr. Henley represented most high. Alderman Okell stated he was not in favor of a legal delegation. Alderman B. Martin, Hamilton, Mr. and Mrs. H. Lush, Mr. MacMillan, Okello.

That in connection with the apportionment, made on the ninth instant by John Day, before Mr. Justice D. A. What Today Means

"VIRGO"

If September 11 is your birthday, the best hours for you on this date are from 10 a.m. until noon, from 2 to 4 p.m., and from 7 to 9 p.m. The danger periods are from 4 to 10 a.m. from 5 to 7 p.m., and from 9 to 11 p.m.

On this day, "Judge not according to the appearance." The vision of some people may be distorted, so do not trust too much to the eye. A casual glance might be misleading. Business records, statements and letters, involving financial transactions, are liable to be confusing, unless some one carefully. Be cautious in making any proposal of either a commercial or social nature, to state your proposition concisely and clearly, so as to eliminate any possibility of your remarks being misconstrued. If you are discreet in expressing yourself, and violate none of the rules of polite society, this ought to be a very lucky day for you. Married and engaged couples, and those trying to win matrimonial prize, must control their tempers on this day, because troubles, trials and tribulations will follow.

If a woman, and September 11 is your birthday, you generally do the right thing at the psychological moment. Being tactful, you have the gift of handling difficult people. You ought to be able to use both your hands and feet advantageously. Largely through some stroke of good fortune, you may become the possessor of valuable assets. There is a chance of a day coming when you will be surrounded by luxuries and have the directing of many subordinates. Envy and jealousy are the two traits of character that you must not allow to dominate you or your actions. As a dietitian, trained nurse, secretary, political appointee, educator, writer, artist or musician you might feel your right start on the way to financial independence. In regard to matrimony, perhaps it will be your plans and ideas that are going to be successfully carried out. The child born on September 11 usually, as soon as it arrives at the age of reasoning, learns with remarkable rapidity. It should have an excellent memory, plenty of self-possession, and a freedom from any sense of fear.

If a man, and September 11 is your natal day, while you may not necessarily be of a muscular type of build, your power of endurance is likely to be above the average persons. Perhaps, after going through some hardships, a great change in your affairs will enable you to become prosperous, without a worry to harass or interfere with your happiness. Through law, journalism, architecture, construction, contracting, medicine or selling you are likely to discover the best means to make substantial amounts of money.

JESSIE MATTHEWS IN DOMINION FILM

Plays Leading Role in "It's Love Again"—Robert Young Appears in Cast

Jessie Matthews, in her GB production, "It's Love Again," will be seen at the Dominion Theatre today. In the role of Elaine Bradford, an ambitious chorus girl who has not yet clicked at her career, Jessie storms the office of Archibald Raymond, famous producer, only to be turned away. She makes the acquaintance of an impetuous newspaper man (played by Robert Young) who, for want of material for his gossip column, has invented the existence of an exotic lady from Asia, who soon becomes a national legend. Her escapades are recounted by him daily . . . her love adventures with Maharajahs, and her eccentricities, which range from earnest riding to the enjoyment of llama soup.

Unknown to the imaginative columnist, Jessie impersonates the stranger, gets on the front pages of the rival newspapers, into the inner circles of society, eventually into a hit musical revue and finally into the arms of the columnist himself.

OAK BAY Hollywood, in its search for new forms of expression, has turned to the fields of classical music and terpsichore to produce one of the finest romantic photo-plays ever to issue from the film capital. It is the Lucky production "Here's to Romance," now showing at the Oak Bay Theatre, starring Nino Martini.

PLAZA Gary Cooper, who plays opposite Marlene Dietrich in "Desire," which is now at the Plaza Theatre, rode straight into stardom on the back of a pinto pony. PROGRAMMES TO BE CONCLUDED TONIGHT

Tonight, on the Show Boat, the Royal British Columbia Pierrots will present their final programme for the season, at 7:30 o'clock. Ernie Impett, who leads this talented organization, has prepared a special and outstanding programme for this "Good-Bye Summer" event. Betty and Hugh will repeat their special "Family Album" number by general request. With the exception of this the whole programme is to be new.

RUSSIAN PICTURE IS COMING HERE MONDAY

"Peasants," the Soviet Russian production, which will open Monday at the Columbia Theatre, presents a superb screen drama of life among the Russian agriculturalists as it is today. The theme is based on the struggle to educate the confused peasantry to the principle of collective farming as against that of individualism. Not only as a cross-section of a much-discussed subject, but as a gripping story, packed with human emotion, "Peasants" has aroused much interest wherever it has been shown. It was named among the prize winners at the Moscow Film Festival.

PHYSICAL EVENTS TO BE PRESENTED

A mass demonstration of recreational and physical activity has been arranged by Ian Eisenhardt for the Show Boat tomorrow evening, commencing at 7:30 o'clock. Mr. Eisenhardt is director of recreational and physical activity for the Provincial Department of Education.

Included in the programme will be Swedish gymnastics, general athletics, recreational exercises, tap dancing, Danish primitive gymnastics, Gypsy dances, apparatus work, general athletics, Greek processions, pyramid building and tumbling. Hon. Eric W. Hamber, Lieutenant-Governor, and several members of the provincial Cabinet will be present. The City School Board and City Council will also be represented.

FIRE DESTROYS MILL

VANCOUVER, Sept. 10 — A small sawmill at Surrey Centre, near here, owned by Defoe & Jackson, was destroyed by fire early today. Damage was estimated at \$2,000. The blaze was believed to have been started by spontaneous combustion in the boiler room.

Civil War Shots Are Featured in Dominion News

GRAPHIC scenes from the Spanish war zone are brought to the Dominion Theatre by the Daily Colonist-Universal Newsreel, which commences today. Fresh Loyalist troops, for the most part raw militiamen, augmented by women and girls, stream northward from Barcelona toward the front. The havoc and destruction wrought by civil war in modern times is depicted in the terrible scenes of countrymen fighting countrymen in hand-to-hand conflict.

Other flashes of current interest include the arrival of Jesse Owens, Olympic star athlete, in New York, a wedding ceremony, when a couple were united in the jaws of a sixty-five-ton whale at Long Beach, California; Crook winning the speed-boat race to retain his title for the United States at Red Bank, N.J., and thrilling scenes of the rodeo at Hollister, California.

REDS DEFEAT NEW YORK TO TIGHTEN UP RACE

Giants' Lead Over Cardinals Is Sliced; Cubs Come Through

Pace-Setters Lose Valuable Ground in National League Pennant Chase—Only Three and One-Half Games in Front—Gehrig Hits Forty-Fifth Homer as Yanks Lose to Indians

NATIONAL LEAGUE
NEW YORK, Sept. 10 (AP)—The National League-leading Giants lost three games today.

They dropped a 7-to-2 decision to the Cincinnati Reds, they lost a full game from the pace-setting margin, which was clipped to three and one-half games, and Manager Bill Terry was taken for a suit of clothes by Charley Dressen, the Reds' pilot.

The outfit was the stake in a hot Terry made with Dressen that the Reds wouldn't win nine games from the Giants this year. Today's victory was the ninth.

The defeat, coming at the same time as the second-place Cardinals

won their start in Boston, dropped the Giants' lead to the danger mark.

The victory for the Reds was accounted for by Paul Derringer's seven-hit pitching, and a fifteen-hit attack against Gabby Gabler and Dick Coffman. Featuring the assault was a homer by Ival Goodman in the seventh with two mates on base, and another for Ernie Lombardi with the bags empty in the sixth.

Homer Wins for Cubs
PHILADELPHIA, Sept. 10 (AP)—

The Chicago Cubs, thanks to Stanley Hack's eighth inning homer, scored a 3 to 2 victory over the Phillies today to gain a full game on the league-leading Giants.

Hack's circuit clout, his sixth of the season, came with two out in the eighth and broke up a pitchers' battle between Bill Lee and Bucky Walters.

Stan Sperry, Phillies reserve infielder, was carried off the field in the ninth when he injured his ankle.

Pirates Trounce Dodgers
BROOKLYN, N.Y., Sept. 10 (AP)—

The Pittsburgh Pirates clubbed Brooklyn pitching for seven runs in the first two innings today and then went on to overwhelm the Dodgers, 11 to 5, behind Bill Swift's effective hurling.

Swift helped the batting attack with a homer in the eighth inning, while French Bordaberry hit one for the Dodgers in the fifth.

Earl Browne, recalled by the Bucs from Louisville, made his first start with a double and a triple.

Berger's Homer Decides
BOSTON, Sept. 10 (AP)—The St. Louis Cardinals pulled within three and one-half games of the league-leading Giants today by defeating the Boston Bees, 3 to 2, with a ninth inning two-run rally.

Wally Berger drove in both runs with his twenty-fourth homer of the season in the first frame.

Earlier Lou Gehrig had poled out one of Johnny Allen's pitches for his forty-fifth homer of the season for the American League champions, and Bruce Campbell had belted one out for the tribe.

PARKER WINS FROM MANGIN IN U.S. MEET

Carries Too Much Stamina In Taking Five-Set Match At Forest Hills

FOREST HILLS, N.Y., Sept. 10 (AP)—Seven thousand tennis fans, hungry for an upset of some sort, were set down cold today, but they

were treated to a most spectacular exhibition of top-flight valouring as Gregory Mangin went down to defeat before young Frank Parker and the United States singles championships were reduced to eight players—two from England.

Parker, younger and stronger, had too much stamina for Mangin, winning at 10-12, 6-0, 4-6, 6-1, 6-3, while his opponent in one of tomorrow's semi-finals, red-headed Don Budge, waded through John McDiarmid in straight sets 6-4, 6-3, 6-2.

PERRY MEETS GRANT
The other men's semi-finalists, Fred Perry, of England, winner in 1933 and 1934, and Bryan "Bity"

Grant, Jr., the Georgia giant-killer, gained their brackets yesterday. In view of his smashing triumph over the "little Atlantan" at Wimbledon two months ago, Perry again is expected to trim Grant, while Budge, on the strength of his improved showing today, is figured to beat Parker.

Thus, the long-anticipated meeting on American turf between Budge and Perry probably will take place in Saturday's final. On present and past performances, Perry is rated almost a cinch to become the first invader to win the title three times.

FACES KAY STAMMERS
Helen Jacobs cheered the hearts of supporters, rooting for her to win the women's championship for the fifth straight year by crushing the San Francisco southpaw, Gussie Riegner, 6-1, 6-0. Tomorrow Miss Jacobs will oppose the crack English southpaw, Kay Stammers, in what should be Miss Jacobs' hardest assignment.

Accepting the invitation of the Vancouver Rowing Club, J.B.A.A. oarsmen will leave tonight for the Mainland to compete in the Vancouver Rowing Club's annual Fall regatta. The locals will compete in the senior fours, 140-pound fours, doubles and singles. Those making the trip are J. McDonald, Hugh

FINANCE - COMMERCE - MARKETS

Security Prices Hold Steady at New York Mart

NEW YORK, Sept. 10 (AP)—Stocks were inclined to tilt upward in today's market, but buying order was confined almost exclusively to the steel, amusements and selected specialties.

Trading sentiment appeared to be buoyed, however, but was far from clear and many of the commission house customers were not adverse to cashing in some of their profits.

The steel group took the lead early as The Iron Age weekly review for this industry sounded an optimistic note.

Recent boasts in moving picture theatre admission charges, together with reports of capacity attendance over the holiday, aroused hopes of sharply increasing earnings for some of the companies in this line.

While copper shares did virtually nothing, an increase in price of copper and brass products brought life to some of the fabricating issues.

The motors and utilities were backward throughout. The holiday cut down electric power consumption and automobile output was off on account of the change-over to 1937 models.

Demand for low and medium-priced bonds set the pace in the listed markets.

Rail bonds reached a new average high price for the year, foreign bonds moved sluggishly with fractional gains outnumbering losses.

WHEAT GAINS FRACTIONALLY

Buying by U.S. Millers
Boosts Prices at Winnipeg
Grain Exchange.

WINNIPEG, Sept. 10 (AP)—Substantial buying for United States milling interests imparted strength to a sagging market in late dealings on the Winnipeg Grain Exchange today.

Less vigorous support earlier knocked the dollar prop from under the nearby October wheat futures and pared gains of more than a cent in December and May options.

The close was 1-2 to 3-4 cent, December at 98 1/2 to 1-4 and May at 100 1/4 to 3-8 cent a bushel.

Trading was light with exports placed at 300,000 bushels.

Outside markets gave an irregular display. Liverpool closed 1-8 lower to 1-8 higher Buenos Aires at noon was 1-4 down to 3-8 cent higher. Southern markets were firm.

Spreads on cash wheat and coarse grains, finished unchanged to a fraction higher.

Jane Dixon Says:

HERE IS THE COMPLEX STORY OF A DOMESTICALLY INCLINED WIFE WHO IS DISTRACTED BY LONELINESS IN A HOME ON THE EDGE OF A TOWN

What have you to say to or about this woman? Her complexities have me dizzy. Yet, as she lists and explains her troubles and her joys, there seem to be reason in both.

The situation is this: She loves her husband. "I'm crazy about him," she writes. They've moved to a house on the edge of town. "I've endeavored to make the interior as attractive as possible," she says. "We've accumulated some pieces of very nice furniture, and I'm entirely satisfied except with the loneliness. Some days I feel that I will scream and scream. I have to get out of the house. I can't stand it. From early in the morning until late dinner in the evening I'm alone."

There's no transportation into town unless she rides in with her husband when he goes to work in the morning and waits until he's finished in the evening. She can't make a habit of "parking with friends."

SHE'S NOT ENTIRELY TO BLAME

When her husband has an evening engagement in town, his club or his lodge or some man-meeting, she has to "hang around and wait" no matter how tired she is because she's afraid to stay home alone.

Add to this the fact that this woman has been ill of an organic disease for a number of years, and her hope of recovery lies in rest and freedom from worry or irritation; and that she cares for a good-sized house and cooks the meals most of the time and is exhausted by the effort.

"My nerves are so on edge that I fly off the handle at the least provocation," is her admission. "I know I must be hard to live with and an expensive burden, but I'm not entirely to blame. My first year of marriage was made such a Hades that I crumpled under the knowledge my husband did not love me. However, after my breakdown he seemed to change."

Yet I'm not convinced he loves me devotedly. I suspect it's just pity that makes him as attentive as he is. He never tells me he loves me unless I ask him.

The husband has provided the best of medical attention for this wife. She, in turn, does everything possible to economize, denies herself pretty clothes and all feminine luxuries.

THE CAUSE OF THE TROUBLE

The keynote of this wife's cry is that she wants to move back to town.

Her husband says: "I can't afford it."

She says: "We can't afford not to do it."

They've both lost weight over this impasse with its attendant strain and wrangling, and there is danger of their marriage being wrecked.

She can't see why he should be so stubborn.

He can't understand how she can be so unreasonable.

So the two of them live under a dark cloud of restlessness and resentment, and the house on the edge of town with the good furniture, so carefully accumulated, is a shambles of what might have been.

I'm wondering how they came to move out there in the first place. The husband knew his wife was not well and that she would be left alone much of the time.

The wife knew her husband's hours at work and that a home in a country road, even though it is a main highway, is not a billet on a city street.

THEY NEED AN UMPIRE

The country is for persons who find happiness in solitude and in communing with nature, who can make friends with flowers and trees and green grass and maybe some little people of the animal world.

Well, these two made their mistake, and having made it, I do wish the husband would give it up, get the two or three rooms in town, and tell the wife not to ask him if he loves her.

I wish, too, that she'd stop worrying about pity and concentrate on making herself lovable. Perhaps then she wouldn't have to ask.

No wonder the two of them have lost weight and are on the verge of physical collapse as well as marital disaster. Why not call in an umpire, Mr. and Mrs.? The family doctor or lawyer or some kind friend who will render an impartial and workable adjustment.

BEAVER POINT HALL IN ASHES

Incendiarism Suspected for
Burning of Community-
Built Structure

SALTSpring ISLAND, Sept. 10.—At 6:30 on Monday morning, while on his way to collect the milk cans for the creamery, Jim Akerman, in passing the Beaver Point Hall, found the building on fire. Although he obtained help as quickly as possible, telephone service not being in operation at this time in the morning, nothing could save the building, which was quickly reduced to ashes.

The mystery of the fire has not been solved, but the police state they are convinced it is a case of incendiarism. The Institute Hall, Pulpit Harbor, only three to four miles distant, was completely destroyed by fire in July under similar circumstances, as in both cases a dance had been arranged to take place on the evening of the day the fire was discovered.

The building has only small insurance on it. Residents had obtained the lumber for its construction a year or two ago by organizing a series of dances, card parties, etc., the hall had been built by voluntary labor, and it is understood, had the best dancing floor on the island.

That Body of Yours

(By James W. Barton, M.D.)

REDUCING THE NUMBER OF
EPILEPTIC ATTACKS BY IN-
CREASED OXYGEN PRESSURE

While the routine treatment of epilepsy is now generally known, it might be worth while to mention it once more. It consists of:

1. Cutting down on the amount of liquids—tea, coffee, water, soft and hard drinks.
2. Cutting down on starch foods—sugar, bread, potatoes, pastry.
3. Increasing the amount of fat—butter, cream, fat meats, egg-yolk.
4. The use of phenobarbital daily, the dose varying with the age of the patient and the severity of the attacks.

By following the above four rules many epileptics remain completely free of attacks and others have the number of attacks greatly decreased.

It would appear that another method of relief has been found which may perhaps lead to the discovery of the cause of epilepsy. Drs. W. G. Lennox and A. R. Behnke, Jr., Boston, in The Archives of Neurology and Psychiatry, Chicago, tell of an experiment with three epileptics.

Three young women who had a number of light attacks of epilepsy daily: with whom experience over a number of years had shown that epileptic attacks followed on a number of occasions after the breathing of air low in oxygen, three and one-half to five hours in a compression chamber under an absolute pressure of four atmospheres, together with one or the other of the two physicians. Aside from the effects on the number of attacks that occurred, these patients while under pressure experienced the same degree of mild intoxication as did the physician present at the time. On days on which the experiments were not carried out, that is under their usual normal conditions, they had seizures at the average rate of one every forty minutes. In the compression chamber the rate was about one every eighty minutes. Thus the number of attacks was cut down by about one-half when in the chamber.

Thus Drs. Lennox and Behnke state: "Decreased oxygen tension tends to bring on an attack and increased oxygen tension tends to prevent attacks of epilepsy." It may be that this knowledge that increased oxygen pressure reduces the number of attacks of epilepsy may prove of help in the treatment of attacks and possibly in the discovery of the cause of epilepsy also.

ROBBING PETER TO PAY PAUL. Actuaries can tell us how long any particular group of humans will live; but nobody can predict with accuracy the life-span of a current colloquialism, idiom or phrase favored by popular fancy.

Language longevity may be a week, a year, a century. And some times will probably last forever. Among those which bid fair to make the latter category is "Robbing Peter to pay Paul," an expression

FRIEND TO TRAVELLERS

"Changes in climate, drinking water and the variety of cooking that one has to contend with on a journey of any length are ordinarily upsetting to the average digestion. Eno is the ideal alkaline to keep a normal balance in the system. Wise travellers are never without it. The morning drink leaves one clear-headed and cool for the rest of the day."
